EUCONTACT

AT HOME IN THE UK AND EUROPE WHO WE ARE

Comprehensive knowledge of the European Policy

EUCONTACT staff have longtime experience with the European policy in the following areas: VET & FE, Social Policy, SME policy and structural and regional policy.

Clients and cooperation partners

EUCONTACT has a wide portfolio of public and private clients and cooperation partners such as: training centres, NGOs, associations and federations based in the UK, IE, DK, FR, HU, DE and RO, just to mention the EU countries we mostly work with.

Longtime experience with EU funding programmes

Before joining EUCONTACT, the members of our team worked with European institutions or institutions with European activity scope, thus having longtime hands-on experience with European funding programmes, bids and tendering procedures.

Projects cofinanced by the EU

EUCONTACT team are experienced with developing national bids cofinanced by the EU on a national level.

EUCONTACT

AT HOME IN THE UK AND EUROPE WHAT WE DO

Development of projects funded by the EU

Development of projects in view of applying for funds for a bespoke EU programme, respectively a EU bid. E.g. a better combination between study and work placement in companies.

Development of applications & bids

Professional development of project applications, bids, including putting together the requested consortia (European partner structure) and their electronic submission in the three main European languages (FR, EN, DE) and HU, RO, IT, ES.

Involvement of national match funding

When and as necessary, applying for European funds by writing bids can be combined with national ones.

Training on European funding and tendering

EUCONTACT staff can carry out bespoke inhouse trainings on the EU funding programmes, tendering procedures and project management.

Identification of EU funding programmes

Consultancy on the current European funding programmes and their accessing for shortand longterm strategies.

Assistance with project implementation

Sound experience with project management for our customers, especially in the case of successful projects, that have been developed by EUCONTACT.

Strategic consultancy on European topics and future funding priorities

Development of short and midterm strategies for a targeted use of the European funding programmes in conjunction with the respective mission statement of the client institution.

Development and testing of innovative European projects in the field of VET and FE

A special work area of EUCONTACT is to promote European projects in order to further develop the European dimension in VET and FE, with a special emphasis on technical and health and social trades.

EUCONTACT

AT HOME IN THE UK AND EUROPE HISTORY OF SUCCESSFUL ACTIVITY

Areas of focus

EUCONTACT has been working successfully as project developer in the following areas: **vocational education and training / VET, further education / FE, social and labour market policy, SME (entering new markets, energy efficiency and innovation) and structural and regional policy** at European and national level.

EU programmes

The European funding programmes we are specialised in are the following ones: **Lifelong Learning Programme – Leonardo da Vinci – Mobility – Transfer of Innovation – Partnerships – Further education of teaching staff – Social funds / ESF, the Competitiveness and Innovation Framework Programme / CIP Programme to support SMEs** Intelligent Energy Europe / IEE ECO INNOVATION and the European programmes for **Structural and Regional Policy**.

Differentiated consideration of the tendering priorities in the UK and other EU countries

In addition to the European priorities, the current national tendering trends and priorities of each EU programme in the UK are considered. This is also valid for the EU programmes in the other EU countries, such as: DE, HU, RO, TR, DK where EUCONTACT also operates.

High success quotas for projects developed by EUCONTACT

Our comprehensive competencies due to our longterm experience allow us a very high quota of funded projects for our clients, both in the UK and other EU countries we operate in.
